EMC
ecometrix

EMC AT A GLANCE

Foundation and Impact

Ecometrix Consultants Pvt. Ltd. (EMC) is a leading engineering and technical consultancy headquartered in Bhubaneswar, Odisha. Established in the year 2015, EMC delivers end-to-end infrastructure development, engineering & project management solutions spanning water supply, used water management, stormwater drainage, urban infrastructure planning, GIS & IT, transportation, digital solutions and beyond.

ISO 9001:2015 ISO 14001:2015 ISO 45001:2018 ISO 27001:2022

INSTITUTIONAL STRENGTH

11+ Years
of On-Ground Experience

350+
Multidisciplinary Professionals

300+
Projects Delivered

40 Million+
Lives Impacted

₹400 Billion+
Infrastructure Engineered

Nationwide
Footprint and Expanding Reach

8 regional offices operating across **20+ states** and **UTs** with an emerging international

Advanced GIS & IT
Innovation Lab

In-house capability for spatial intelligence, data analytics, and digital models.

Specialized in Master Planning, Feasibility Studies, Pre-Investment Engineering, Master Planning, and

Downstream
Execution Excellence

Seasoned in Construction Supervision, Contract Management, and Project

LEADERSHIP

Chinmay Tripathy, CEO

Environmental Engineer
Water Sanitation Reformer
Infrastructure Strategist
People-Centric Changemaker

At EMC, our responsibility extends beyond engineering because infrastructure shapes how people live, work, and grow.

That responsibility calls us to strengthen institutions, build local capability, and create the conditions for sustainable progress.

As we grow, EMC will continue to be recognised not simply for the services we provide, but for the positive difference our work creates in the lives of people and communities.

> When **people come first** and **meaningful impact** leads the way, the **numbers follow.**

ADVISORY BOARD

Sanjeev Kumar Das

Mentor-in-Chief, Water Supply & Sewerage Management

Public Health Engineering specialist with 35+ years in water supply, wastewater and sanitation. Former CEO, Ecometrix (2021-2024), with expertise in 24×7 water supply, SCADA-enabled utility modernization, sewerage, utility planning and project management across India.

Ryuji Otaguro

Advisor, International Infrastructure & Development

International infrastructure specialist with 35+ years of global experience in World Bank, JICA and ADB-funded infrastructure, engineering and procurement programmes. Provides strategic expertise in international project management, institutional development and donor-funded infrastructure.

Gopesh Shrivastava

Advisor, Business Development & Client Relations

Civil Engineer with 35+ years of experience, including 20+ years with PHED, Madhya Pradesh, and 15+ years in infrastructure consulting. Expertise in urban water, sewerage, drainage, flood management & solid waste, with leadership in JICA-assisted projects. Director, Ecometrix, guiding project management, business development & client relations.

Sachidananda Satapathy

Advisor, Environment & Climate Change

Environmental Scientist with 40+ years of leadership in environmental management, climate policy and sustainable development. Contributed to India's climate policy, ozone protection and international environmental negotiations, bringing expertise in environmental governance, policy and climate action.

Basanta Kumar Parida

Advisor, Water, Sanitation & Urban Infrastructure

Distinguished Civil Engineer and former Chief Engineer, Government of Odisha, with decades of leadership in urban infrastructure. Recognized for contributions to water supply, sanitation and drainage, including leadership in the JICA-assisted OISIP and the

ENGINEERING 24×7 DRINK FROM TAP WATER SYSTEMS

End-to-end expertise
From Network Planning to Reliable Water at Every Tap

System Planning & Design

- **City-wide** water supply master plans
- Hydraulic modelling & network optimisation
- **24×7 pressurised distribution** design (DMA/Sub-DMA)
- Reservoir, **pumping & transmission systems**
- Pressure management & NRW reduction

Project & Transaction Advisory

- HAM-PPP **water supply transaction** advisory
- Technical due diligence
- **Performance-based** contracting
- **Procurement & bid** support
- **Institutional and O&M** frameworks

EMC's Capability Pillars

PMC & Implementation Support

- **Project Management** Consultancy
- Construction **supervision** & performance **monitoring**
- Network commissioning & **transition to 24×7**

Operational Transformation

- **GIS-based** asset & consumer mapping
- **NRW** management
- **Flow & pressure** monitoring
- **Digital water** management
- **Water quality** surveillance

40+ Cities | **8M+** Citizens | **₹60 Bn.** Asset Value

FROM SOURCE TO TAP

Digital, Data-Driven & Quality-Assured Water Management

Digital Water Management

- GIS-based asset & consumer mapping, Hydraulic modelling
- DMA / Sub-DMA based NRW assessment and management
- SCADA / IoT-enabled water network monitoring
- Digital billing, revenue & customer management advisory

Water Quality from Plant to Tap

- State-of-the-art laboratory and water quality monitoring systems
- IoT-enabled surveillance from WTP to consumer tap
- Data-driven compliance, reporting and quality assurance

Engineering & Programme Support
for Water Corporation of Odisha (WATCO), Govt. of Odisha

Planning, Design & Implementation of 24×7 Drink from Tap supply systems across Odisha

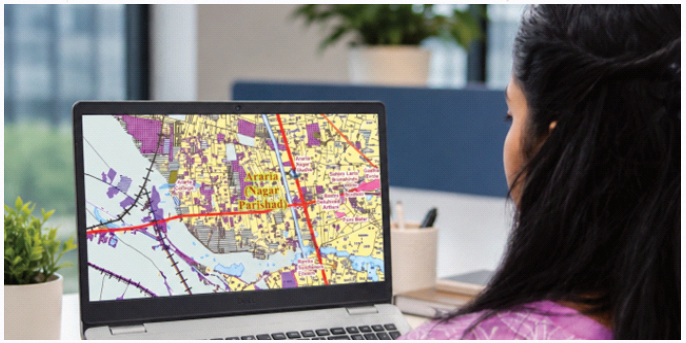
SERVICES OFFERED

Survey & Investigate

• Field Surveys • Condition Assessment
• Utility Assessment • Household & Consumer Surveys
• Environmental & Social Assessment
• Transportation Survey • Land Use Survey • Topographic & Cadastral Surveys • Drone & LiDAR Surveys



Plan & Assess

• Master Planning • Feasibility Study • Pre-Investment Engineering • Urban & Regional Planning • Land Use Planning • Infrastructure Planning • Hydraulic & Hydrological Analysis • Flood Analysis • Traffic Impact Assessment • Wastewater Reuse Planning

Manage & Deliver

• Tender Process Management
• EPC Technical Assistance • Construction Supervision
• Quality Assurance • Contract Management • Project Management Consultancy • Environment & Safety Monitoring • Risk & Quality Management

Design & Engineer

• Detailed Engineering • DPR Preparation • Hydraulic • Hydrological • Structural • Electromechanical • Instrumentation & Automation • WTP
• STP/CETP • Pumping Stations • Water Supply, Sewer & Drainage Network Modelling • Architectural Design
• Cost Estimation & Quantity Take-offs • 3D Modelling

Digital & Spatial

• GIS & Asset Mapping • Geospatial Data Management & Analysis
• Remote Sensing • Photogrammetry • LiDAR Processing • 3D Mapping • Enterprise & Web GIS • Utility Asset Management • Data Analytics & Decision Support • SCADA • Digital Water Management • Infrastructure Dashboards • MIS

DELIVERY EXPERIENCE

Drinking Water Supply

24×7 Drink from Tap Urban Water Supply
40+ Cities | 8M+ Citizens I ₹6,000 Cr Asset Value
Fecilitated planning across Bhubaneswar, Cuttack, Sambalpur , Chennai, Coimbatore, Tezpur and Puducherry.

Rural Water Security
3,000 Rural Schemes I ₹4,000 Cr Portfolio
DPRs under the Jal Jeevan Mission across Assam and Karnataka.

Water Treatment Infrastructure
30 Large-Scale WTPs
Technological design for major water treatment infrastructure.

Project Management Consultancy
24×7 Supply | Tezpur & Sambalpur
PMC for continuous water supply initiatives in Assam & Odisha.

Used Water Management

Sewerage Infrastructure Engineering
3,000+ km Network
DPRs for major cities such as Bhubaneswar, Cuttack,

Large-Scale Execution & Advisory
1,250+ km Network | 3 STPs | 56 SPSs | ₹4,000 Cr Portfolio
PMC under the Japan International Cooperation Agency **(JICA)**-assisted Odisha Integrated Sanitation Improvement Project **(OISIP)**, across Cuttack and Bhubaneswar.

Interception & Diversion Systems
40+ Cities | 2 States
State-wide I&D systems integrated with STPs across Odisha and Bihar.

Rural Decentralized Sanitation
931 Villages | Karnataka
DPRs for decentralized greywater management systems.

Stormwater & Flood Managament

Urban Drainage Master Planning
25+ Cities | Pan-India
Drainage Master Plans developed for large cities across India such as Bhubaneswar, Cuttack, Sambalpur, Rourkela, Brahmapur and Mussoorie.

Project Management Consultancy For Flood Mitigation
DPR | Bidding | Supervision | Contract Management
End-to-end PMC services for Japan International Cooperation Agency (JICA) assisted drainage project in Cuttack worth ₹ 1,200 Cr.

GIS & Spatial Intelligence

Consumer & Utility Asset Mapping
1.5M+ Households | 2,000+ sq. km | 90+ Cities
Large-scale mapping of households and utility assets for urban infrastructure planning.

GIS Integrated Planning
20+ Cities | 8+ States
Spatial master plans and GIS-based development planning across diverse urban regions.

International Geospatial Projects
4 Countries | West Asia
High-precision topographical mapping across key zones in Iran, Iraq, Israel and Yemen.

Urban Planning

Strategic Master Planning
9+ Cities | 3 States
Strategic master plans developed across Odisha, Bihar and Himachal Pradesh.

Housing & City Action Plans
22+ Urban Locations | PMAY
City Action Plans supporting housing and urban development under Pradhan Mantri Awas Yojana (PMAY).

Integrated Urban Development
2M+ People | 500+ sq. km
Urban development initiatives improving living conditions across a large regional footprint.

Urban Development & Civic Infrastructure

Waterfront & Green Space Development
Ponds | Riverfronts | Canals | Parks
DPR & PMC services for the rejuvenation and beautification of water bodies, canal corridors and public green spaces.

Civic & Public Buildings
Auditoriums | Administrative Buildings | City Centres | Markets
Planning and PMC services for essential civic and public-use infrastructure.

Sports & Community Infrastructure
Town Halls | Mini Stadiums | Sports Complexes
DPR and PMC services for community, cultural and recreational facilities.

Transportation

Highway & Bypass Planning
NH-26 & NH-59 | Odisha
Feasibility studies and budgeting for bypass development at Bhawanipatna and Titlagarh.

Road & Corridor Engineering
4-lane roads | Elevated Corridors | Bihar
DPRs for a 4-lane roadway and the Digha-AIIMS

Rural & Urban Road Development
Jaraka, Jajpur | Odisha
DPR for road construction under the Rural Development Department, supporting improved regional connectivity.

Digital Solutions

Project Performance Management
Custom-Built PPMS | Real-Time Tracking
Digital tools for monitoring and managing complex infrastructure projects.

Digital Water Governance
End-to-End Monitoring | 24×7 Drink from Tap
Digital frameworks enabling real-time oversight of urban water supply initiatives.

Spatial Asset Intelligence
Web GIS | Consumer & Utility Data
Integrated spatial portals combining consumer data, utility assets and automated query handling.

WHAT SETS US APART

our team
multidisciplinary expertise
combining technical depth
with local understanding

our approach
integrated thinking
connecting global knowledge
with local realities

our ethos
enduring partnerships
across sectors, geographies
and generations

EMERGING DIRECTIONS

Driving efficiency while widening our footprint into **next-generation domain areas**

- Buildings & Institutional Infrastructure
- Renewable Energy & Green Transition
- Integrated Water Resource Management
- Healthcare & Public Infrastructure
- Climate Adaptation & Systems

This strategic evolution is powered by AI-driven spatial planning, predictive engineering analytics, digital asset
